#	Idea Name	Problem Solved	30-Day MVP Scope	More Zero-to-One Concepts (defensibility, path to $1 M ARR)
1	AuditGPT	SMB owners miss fraud and bookkeeping errors.	Connect QuickBooks/Xero APIs; LLM flags anomalies, explains fixes in plain English.	Fine-tune on anonymized ledgers; sticky integrations drive high switching cost; tiered SaaS $29-$199/mo → $1 M ARR with ≈3 k users.
2	VoiceOverCoach	Amateur voice actors lack affordable, objective feedback.	Upload clip; speech-to-text + emotion/modeling AI returns graded report and drills.	Unique dataset of annotated takes; gamified progress loop; freemium → pro $15/mo plus talent-agency referrals.
3	GhostwriterPR	Founders can't craft targeted cold pitches to journalists.	Paste announcement; LLM drafts email + auto-builds press list via media APIs.	System learns reporter open rates; network-effect data moat; pay-per-pitch + $99/mo power tier.
4	ComplianceCopilot	Regulated teams risk fines from sloppy Slack chatter.	Slack bot scans messages in real time, flags violations, logs audit trail.	Continually updated rule library; deep workspace embedding; $5/user/mo → hit $1 M ARR at 17 k seats.
5	PitchDeckForge	Early startups waste weeks designing decks.	Upload transcript & metrics; AI outputs polished deck + charts in Figma.	Proprietary template ranking, analytics on investor engagement; $49/deck + subscription for updates.
6	Sketch2PCB	Hardware hackers struggle turning napkin sketches into PCBs.	Vision model vectorizes hand drawing, exports Gerber files.	Community library of components builds moat; pay-per-board export + pro CAD plugin licensing.
7	GenomicSnack	Health snacks rarely match individual genetics.	Import 23andMe raw data; AI suggests personalized snack box.	Unique taste-feedback dataset; private-label margins; $40/mo subscription reaches $1 M with 2.1 k users.
8	LegalLens	Renters don't understand hidden lease traps.	Upload PDF; LLM flags risky clauses, suggests edits, auto-drafts email to landlord.	Trains on growing lease corpus; partner with tenant unions; $10/report or $5/mo protect plan.
9	CoachCam	Youth athletes lack affordable swing analysis.	Phone captures swing; CV model overlays angles, suggests drills.	Parents share highlight feed → viral loop;

#	Idea Name	Problem Solved	30-Day MVP Scope	More Zero-to-One Concepts (defensibility, path to $1 M ARR)
				$8/session credits; upsell team licenses.
10	AutoCaseLaw	Law firms miss brand-new filings that affect clients.	Scrape PACER daily; AI classifies relevance, sends alerts.	Proprietary routing tags; $299/mo per practice group; cross-sell litigation analytics.
11	DefectFinderAR	Builders overlook costly code violations.	Smartphone scan; CV detects spacing, materials, safety gaps in real time AR.	Growing defect image set; insurance discounts create moat; pay-per-project + SaaS dashboard.
12	LocalAdCraft	SMBs can't afford high-quality video ads.	Record 10-sec phone clip; AI edits, captions, geo-targets on Meta/TikTok.	Performance data feedback loop; $99/ad, optional managed spend cut.
13	CareerNarrative	Job-switchers struggle presenting cohesive personal story.	OAuth socials, resume; LLM crafts branded narrative, iterates via recruiter feedback.	Feedback dataset deepens moat; $12/user monthly; affiliate revenue from resume services.
14	SynthNeighborhood	Movers can't preview noise, traffic, microclimate.	AI simulates chosen address using open data + generative audio/visual.	City-level data exclusivity via partnerships; $20/report; realtor bulk packages.
15	MindfulMinutes	Generic meditations fail to hold attention.	Clone user's voice; LLM crafts 2-min personalized sessions, pushes via app.	Unique voice models bind users; freemium → $7/mo; B2B wellness bundles.
16	InfluenceShield	Brands fear hidden deepfakes in UGC.	Upload video; AI verifies watermark, source fingerprints, brand-safety scoring.	Model improves with client labels; $500/mo dashboard; insurance partnerships.
17	AgriDroneMapper	Small farms lack low-cost crop stress mapping.	Off-the-shelf drone + open CV spots disease, outputs heatmap.	Local co-ops share imagery; $2/acre scans; hardware-agnostic SaaS path to $1 M.
18	EcomCarbonCut	D2C brands face pressure to cut CO_2.	Import Shopify orders; AI suggests packaging tweaks, route batching.	Proprietary SKU footprint db; $49/mo + carbon-credit affiliate fees; ESG reporting moat.
19	OnboardBuddy	New hires drown in SOP PDFs.	Chatbot ingests internal docs, quizzes learner, tracks mastery.	Org-specific embeddings lock-in; $6/user/mo;

#	Idea Name	Problem Solved	30-Day MVP Scope	More Zero-to-One Concepts (defensibility, path to $1 M ARR)
				expand to certification analytics.
20	CrowdPolicy	Policymakers can't digest thousands of public comments.	NLP clusters sentiment, surfaces top concerns, auto-drafts response matrix.
